

Avni Khare

B.Tech 1st Year | CSE Student | Aspiring Engineer & Innovator

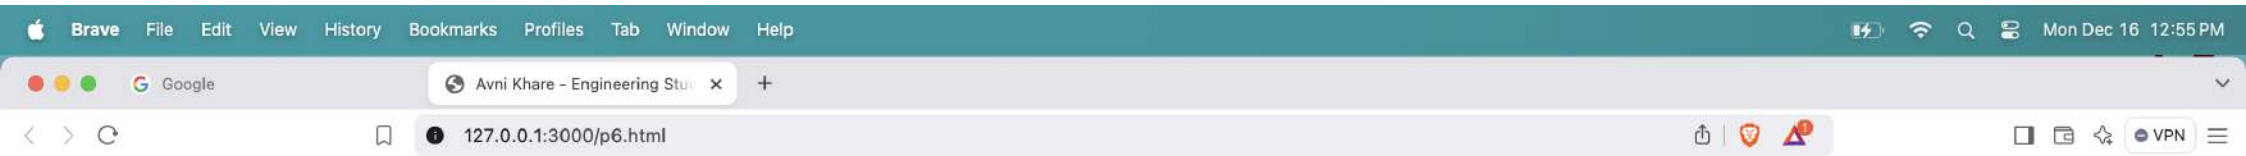

About Me

Hello! I'm Avni Khare, a first-year B.Tech student in Computer Science Engineering at KIET Group of Institutions, Ghaziabad. I am passionate, dedicated, and always eager to learn. I believe in pushing my limits and exploring creative solutions to problems. Not only am I focused on my academics, but I also have a strong interest in music and singing. Music is a driving force that inspires me to stay motivated and grounded. I am constantly thinking about innovative ideas and want to use my technical skills to make a positive impact in the world. I dream of becoming a successful engineer and innovator, contributing to the development of cutting-edge technologies that can improve lives. My journey is just beginning, but I am committed to working hard to achieve my goals.

Skills

Skills

C Programming

C++ Programming

Web Development: HTML, CSS, JavaScript

Problem-solving & Algorithm Design

Projects

Project 1: Simple Calculator (C)

A simple command-line calculator built in C to perform basic arithmetic operations. It helped me get familiar with functions and user input handling.

Project 2: Personal Portfolio Website

Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and achievements.

Future Project: AI-based Chatbot

In the future, I plan to create an AI-powered chatbot that can assist users with common queries. This project will help me explore machine learning and natural language processing.

Future Project: Smart Traffic Management System

As a long-term project, I aim to work on an intelligent traffic management system that uses real-time data and algorithms to optimize traffic flow and reduce congestion.
